Agenda: Spotlight on Arthritis

Jan 30, 2009

Spotlight on Arthritis

On January 30, 2009, the CIRM Governing Board heard from three speakers about the promise of stem cell research in treating arthritis. They learned about the different types of arthritis from Mark Genovese, about osteoarthritis, the most common form of arthritis, from William Robinson, and about a patient's perspective of rheumatoid arthritis from Barbara D'Amico.

- Welcoming remarks: Robert Klein, J.D., Chair of the Governing Board and Phillip Pizzo, M.D., member of the CIRM Governing Board
- Mark Genovese, M.D., professor of medicine – immunology and rheumatology, Stanford University School of Medicine
- William Robinson, M.D., Ph.D., assistant professor of medicine – immunology and rheumatology, Stanford University School of Medicine
- Barbara D'Amico, patient with arthritis
- Q&A session and concluding remarks: Robert Klein, J.D., Chair of the Governing Board
